GAME NOTES

Chestnut blight, a fungus disease which is exterminating the chestnut tree in the United States, has already destroyed most of the chestnut timber east of the Alleghany Mountains in West Virginia, and is now invading the western counties. There is no remedy for this disease. Chestnut timber owners should plan to utilize their trees and if possible encourage the growth of other trees to take the place of those killed by the blight.

All hunting and fishing licenses expired December 31, 1921. Resident and non resident fishermen and hunters are required to procure licenses for 1922, by applying to a Clerk of the County Court, and paying the fee of one dollar and fifteen dollars respectively.

All license fees go directly into the hands of the Game and Fish Commission, and are expended directly for the protection and propagation of game and the improvement of wild life conditions.

The winter of 1921-1922 has been favorable for the game of the state. Wild turkeys, grouse and quail which frequently suffer on account of deep snows and severe cold, have been able to secure food and shelter without artificial aid.

More than one-half million dollars has been saved and invested in United States Treasury Savings Certificates in the Fifth Federal Reserve District during the month of January, according to a statement made by Postmaster J. E. Buckley, of the Marlinton Post Office. The postmaster has just received a letter from Howard T. Cree, Government Director of Savings at Richmond, Virginia, in which he states that sales for January have far surpassed expectations. From 226 post offices reporting and mail orders received at the Federal Reserve Bank in Richmond, the sales total \$562,650.

This new offering of certificates has proved very popular in that they are issued in denominations of \$25, \$100, and \$1,000 and may be purchased at a flat discount price of twenty per cent off their maturity value. People seeking a safe investment, with a guarantee as to both principal and interest, have been quick to take advantage of this attractive issue of "baby bonds" and have bought them in large numbers. Postmaster Buckley says: "For those seeking investment of funds, nothing is more attractive than the new savings certificates which yield four and one half per cent interest on purchase price, compounded semi-annually, if held to maturity, five years from the date of issue."

The body of Michael Linnan whose death occurred at Cass, W. Va. on February 8, 1922, was taken to his old home in Bradford Pennsylvania, for burial. Mr. Linnan was born July 4, 1858, and was married July 7, 1879 to Miss Johanna Hill of Portville, New York, to which union nine children were born. His body was taken to the home of his sister, Mrs. C. F. Palmer, of Jefferson St. Funeral services were held Monday morning in St. Bernard's Church. Interment in St. Bernard's Cemetery besides the remains of his three children. He had been employed by the West Virginia Pulp & Paper Company for the past twenty years. He is survived by his wife and six daughters—Mrs. Sigler, of Elkins; Mrs. Furman and Mrs. Harney, of Eldorado, Kansas; Mrs. McCarty, Mrs. Illegan and Mrs. Blackburn, of Cass. Also, eight grandchildren and three great-grandchildren, and eight sisters and three brothers, and a host of other relatives and friends who all attended the funeral.

Honor Roll Buckeye school, The Corrells, teachers. Grammar Grades, Stowe McNeil, Addison McNeil, Opie Walton, Primary, Audrey, Ruth and Glenn Rucker. Present every day but tardy one or more times: Eula Walton, Clarence Hechert, Amelia Hechert, Louise McNeil, Howard Cook, Ruth Hinkle, Martha Bostie, Mamie Cook, Ethel Cook, Jane Kennison, Beatrice Howard, Anna Morrison.

On the night of February 22 the grammar grades rendered a program and debate with a reading by Miss Ethel Correll and an address by Hon. N. C. McNeil, of Marlinton. Every one seemed to be pleased and the school too as it added \$1.39 to the class fund to be used in buying domestic science and manual training supplies. The girls' and boys' club has had two meetings during the month. They will render a public program soon; proceeds for the benefit of the club.

RESOLUTIONS OF RESPECT Whereas, our Heavenly Father, in His infinite wisdom has called to her eternal reward our beloved sister, Margaret Jones Smith, we, the members of Wesley Chapel Sunday School and church of Hillsboro, wish to bear public testimony of the love and esteem in which we held her.

Although she had been an invalid for many years, and unable to attend public worship, she always felt a deep interest in her church. During her long illness she was always submissive to her Master's will, and humble consecrated Christian, and we believe her spirit is sweetly resting in the presence of the master whom she so faithfully served, and that our loss is her gain, therefore we bow in humble submission to the will of Him who doeth all things well. We shall ever cherish the memory of this gentle sister so worthy of imitation and constant in her devotion to God.

To the bereaved family we extend our heartfelt sympathy in these hours of their deep sorrow, and point them to Him who will comfort them and assure them if they are true to Him they will meet this loved one, some day, where parting is no more. And be it further resolved, that a copy of these resolutions be sent to the family, a copy spread in the Pocahontas Times, and a copy spread on the records of Wesley Chapel Sunday School.

Margaret LaRue Mrs. Lucy Sheets Mrs. J. W. B. Smith, Committee.

THE TOMATO

The tomato, we learn, stands third in value of American crops. It is a great fruit, or vegetable whichever you choose to call it. It is an indispensable article of diet, in summer and in winter. Take the tomato out of modern life, and it would be a loss indeed. And yet, there was a time when the world had it not. But the world, not knowing it did not know its loss, and no doubt had plenty of other and more serious things to worry about.

The only other vegetables which exceed the tomato in value are the Irish potato and the sweet potato, and these two are not even vegetables, also. But just think how many new articles of diet have been added to the nation's menu since the potato and the tomato have been discovered. Surely we live better than our forebearers when it comes to variety.

The tomato also is a vegetable which lends itself readily to improvement as all know; while the comparative ease with which it can be raised in backyards and side yards makes it handy to grow even in towns and cities.—Malt.

WANLESS

Mrs. Indis Cassell continues very ill.

H. L. Kesler has finished his logging job for the W. Va. Pulp and Paper Company.

The farmers are getting ready for the rush of spring work.

Secretary of Agriculture Wallace told us a year ago there was a fine time coming for the farmer. We all agree with him if these are the times he had reference to.

There will be five lime kilns burned in this community this spring. Normalcy has set the price for lime on Henry Forks at thirteen dollars and thirteen cents, and an additional fee of one dollar to drive your flour.

We sure did send a wise bunch of gentlemen to Charleston last winter to make laws to help out down our heavy burden of taxation. They certainly hit the reptile on the head when they thought of raising the valuation of property to lower the rate. We suggest that the sheriffs of West Virginia begin now to muster an army of auctioneers to help make tax sales this fall.

Arle Hamrick, son of Mr. and Mrs. E. H. Hamrick, was born June 20, 1907, and departed this life February 20, 1922, aged 15 years and eight months. He was taken to the Marlinton Hospital on Thursday before suffering from a bad case of appendicitis and was operated on that night. He is survived by his father and mother, two brothers and three sisters. Burial services were conducted by Rev. O. N. Miles in the presence of a large gathering of relatives and friends. His body was laid to rest in the Cloverleaf cemetery. He had come to school several years in Marlinton. He was bright and of a lovable disposition. We sometimes wonder why God takes our loved ones away, but God is too wise to make a mistake in calling our loved ones from us. May God bind up the broken hearted parents and may they await the great throne around which they shall meet to part no more. Arle was a good boy, obedient to his father, and mother, but his voice will no more be heard. He is gone but not forgotten. W. G. V.

CARDS OF THANKS

We wish to thank the many friends in Cass for the kindness and sympathy shown us during the illness and death of our dear husband and father.

Mrs. Linnan and Family.

We wish to thank the many neighbors and friends for their kindness during the sickness and death of our loved one.

Mr. and Mrs. C. D. Bussard.

I wish to thank my relatives and friends and neighbors for their kindness during my spell of sickness. I was confined to my bed seven weeks. I thank God that I am on my feet again. May God ever bless my relatives, friends and neighbors in my prayer.

H. D. Lively, Dunmore, W. Va.

This new sugar-coated gum delights young and old. It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

There are the other WRIGLEY friends to choose from, too:

WARNING FROM AN EX-DISTILLER

If the patrons of the bootleggers do not believe the warnings that are being given them from many men of authority, not the least of whom is Chief Chemist Spear of the International Revenue Bureau who declares that in 98 cases out of 100 he who buys liquor from a bootlegger is buying deadly poison, certainly they ought to heed the words of a distiller, now out of business. He says that the first distillation of whiskey always contains considerable fusel oil which only later distillation and at least four years in a charred wooden container will remove. Fusel oil, he adds, is a deadly poison which brings horrible results to those who drink it even in minute quantities. As bootleg whiskey is in nearly every case the result of a single distillation and never is aged in a charred barrel, no further comment is necessary.—Union Signal.

DRY BRANCH

Farmers are all very busy planning and making ready for big crops. Moral Miller and family have moved on a company farm near the mouth of the Branch.

Ed and Jesse Sharp have returned from Cincinnati where they were taking a course at the Raha Auto school.

Bessie Beale returned home Sunday from visiting friends at Samp.

R. N. Beale will leave here in a short time for West Union where he expects to go into the garage business.

Miss Ada Marshall has returned home from Junior, W. Va.

Our school is progressing nicely under the capable management of Miss Eva Wood. We wish to congratulate her on the good school she is teaching.

The Christian Endeavor is proving a great success at this place. We feel it is doing the community good and hope it will continue to have good attendance.

Automobile owners should not worry about their car troubles as we now have four Raha graduates to take care of them.

Notice

I handle Oyster Shells, Grit, Charcoal, Etc. Want to buy one Rouen Duck Drake, will pay good.
